

BROOKLYN BITES BIT HARD FOR LEADERSHIP

(By Associated Press.)

CHICAGO, Sept. 13.—Brooklyn, getting only an even break in its double-header with Pittsburgh, lost half a game of its lead, both its rivals in the National league race, Philadelphia and Boston, winning. The results leave Philadelphia only one game from first place and Boston in third, three games behind the Robins.

Standing of the leaders:

Club	W.	L.	Pct.
Brooklyn	78	52	595
Philadelphia	76	53	589
Boston	73	54	575

It was a good day for Detroit in the American league. The Tigers romped to victory at Cleveland while the leading Red Sox dropped a tough battle to Washington, the Jennings men standing only half a game behind Boston. To add to the Detroit triumph, Chicago fell half a game back through its defeat by St. Louis, the White Sox now holding third place, two games back of Boston.

Standing of the leaders:

Club	W.	L.	Pct.
Boston	57	57	578
Detroit	79	59	572
Chicago	77	60	562

(By Associated Press.)

BROOKLYN, Sept. 13.—Brooklyn Nations began its long series down the home stretch with an even break against Pittsburgh. Pfeiffer was invincible in the first game and shut out the Pirates 6 to 0. The locals batted all three Pittsburgh pitchers freely. The second game was a duel between Mameaux and Coombs, the Pirate twirler having the edge and winning 2 to 1. Mameaux had Brooklyn shut out until the ninth, when Wheat singled, took second on a wild pitch and after Cutchaw had fanned, scored on pinch hitter Merkle's single. Merkle stole second, but Mameaux fanned both Olson and Meyers.

(By Associated Press.)

PHILADELPHIA, Sept. 13.—A batting rally in the ninth gave Philadelphia Nationals the victory over St. Louis, 4 to 3. After the visitors scored three runs by hitting and Niehoff's error in the second and third innings, Alexander settled down. Meadows was hit hard in the sixth, and in the ninth the home team pounded out the victory on singles by Good and Paskert, Niehoff's double and Stock's drive to deep left center.

(By Associated Press.)

BOSTON, Sept. 13.—Rudolph won for Boston 1 to 0 over the Chicago Nationals, then twirled nine innings of the second game, which went 13 innings before darkness intervened with the score tied at 3 to 3. Rudolph was retired when Tyler batted for him in the ninth and finished out the game. Carter gave Rudolph a hard battle in the first contest, holding the Braves to three hits, while Chicago made five off the Boston man. In the second game the visitors had the Braves 3 to 1 with two out in the ninth when Snodgrass doubled after Hendrix had given two bases on balls. By their victory in the first contest Boston clinched the season's series with Chicago.

Capt. Johnny Evers rejoined the club in response to a summons sent by Manager Stallings, whose team is weakened by many injuries. Evers is still suffering from neuritis and remained on the bench. A medical examination showed that his condition was caused to a great extent by a tooth which had failed to penetrate the gum.

(By Associated Press.)

NEW YORK, Sept. 13.—New York won its sixth straight victory, defeating Cincinnati in the opening game of the series, 3 to 2. After the first inning Benton, the former Cincinnati

**BADLY BURNED WITH
FLYING SULPHURIC ACID**

Patrick Sheahan, superintendent of the Lost Packer mine at Mackay, Idaho, formerly of Pioche, was seriously burned by a tank of sulphuric acid exploding and throwing the contents over him. He was badly burned about the face and for a time it was supposed his sight was ruined.

**NO TIME SET FOR THE
WITHDRAWAL OF TROOPS**

WASHINGTON, Sept. 13.—To set at rest rumors that various units of the national guard soon were to be withdrawn from the border, Secy. Baker reiterated today that there was no fixed policy regarding maintenance of state troops there.

MONARCH WAITING TO LOWER WATER ON THE LOWEST LEVEL

Measured at right angles from the dipping walls, the ledge in the Monarch Pittsburg is 43 feet in width on the thousand level. This may or may not be a coincidence, but it is the exact width of the Murray on the 1540 level of the Extension. In the Monarch, however, the enrichment is not sufficient to make a saving. The breast of the drift now being run, which is bearing 25 degrees south of west and is 880 feet from the shaft, shows from \$5 to \$7, with select samples running up to \$27.50. The walls are West End rhyolite and Extension breccia. In the breccia are nodules of trachyte, indicative of the existence of a bed of this matrix material at greater depth.

Unfortunately, the Monarch at present is unable to explore this ledge on its lowest level, the water line being at the 1076 point. It would necessitate the levying of an extra assessment to provide sufficient money to equip the property with an adequate pumping plant. There are, however, great expectations arising from the contemplated work by the new corporation that has taken over such a vast acreage in the western end of the district. The proposed crosscut from the Bonanza to the Great Western, 6000 feet in length, will drag a large volume of water and will necessarily lower the level in the Monarch, doubtless making it possible to pursue deep work without using pumps. In this event the vein can be tapped at a place where it will probably have the benefit of trachyte walls and the resultant additional enrichment.

The present work is being carried on at considerable distance from the shaft, making the tramming cost a considerable item. This is cut down one third from the ordinary expense by the use of ball bearing ore cars, an invention of Campbell & Kelly, of this city. It is probable, however, that in the event of the finding of a body of ore of a commercial grade

there will be a new shaft sunk or up-raised. This will expedite work and will afford circulation of air, the property being one of the few not connected with any other in the district. Air circulation, governed by fans, is assisted at present by the fact that the shaft is lined, giving one of the compartments an up and the other a down cast.

On the thousand level, where the only moisture is from the sweating of the rock, there is a unique combination of oxides and sulphides, the vein being at the point of transition. This would make it very interesting with a hundred feet greater depth. The present find is nearly in the center of the Monarch claim. In the event of the discovery of pay ore, which seems probable in view of the present showing, the company would have a long trend on the lens and would not be in any danger whatever of being apexed.

LUBRICATING THE HIGH-SPEED MOTOR

"In this day of the eight and twelve cylinder motors we have motor speeds undreamed of a few years ago," said D. G. Hillman, district sales manager of the Standard Oil company, in a recent interview. "More than ever lubricating oil becomes a most vital factor in the successful and economical operation of these motors."

"Power plants operating at these terrifically high speeds require a fluid, fast or high speed oil."

"A western oil manufactured from selected asphaltic base crudes, due to its wonderful internal lubricating value, and natural zero cold test, makes it the correct oil for these high speed multiple cylinder motors."

"The question of carbon in these motors is a serious consideration. Here again a western oil scores because it burns up cleanly and passes out through the exhaust with the products of combustion."

DON'T BUY ANCIENT BREAD SHIPPED IN

I would not buy strange, dry, squeezed bread, when I can buy bread of superior quality in every respect. The Progress and Vienna Bakery bread is rich in flavor and is made of the choicest eastern flour, and is heavier and goes further than any imported bread. We are always ready for any order for pastry of any kind equal to that made in any city. We can serve a large banquet as easy as a small banquet.

Budweiser Famed in Every City

The five big reasons WHY Budweiser sales exceed
other beers by millions of bottles are—

BECAUSE Anheuser-Busch rigorously obey every
law known to Brew-Science.

BECAUSE they pay premium prices for extra fine
northern barley.

BECAUSE they import only the cream of Saazer Hop
crops, of which their giant Storage houses contain
the world's largest supply.

BECAUSE they brew Budweiser in the finest and
largest brewing and ageing plant in the world.

BECAUSE its Quality, Purity, Mildness and exclusive
Saazer Hop Flavor are always and ever the same.
